

WONDERS OF THE AGE

The Electricity Building Opened
Last Evening

THE BRILLIANT EDISON TOWER

It Contains Thousands of Multicolored
Incandescent Lights Which Can
Be Flashed at Will.

CHICAGO, June 1.—Today's attendance did not swell to a great extent the grand total for the month of June, which is confidently expected by the exposition officials. This is attributed to the inclement weather, the day being liberally endowed with showers. Although it was an "open evening" the crowds did not run the risk of being soaked even for the first glimpse of the beauties of electricity building, which was thrown open tonight. The day on the whole was quiet, the only incidents worthy of note being the dedication of the children's and Kentucky state buildings, the opening of the California state building, the display in electricity building, and the German exhibit. In machinery hall, and the opening of the Minnesota state building. The latter was declared open by the commissioners without any formal ceremony.

According to the California idea, the dedications of state buildings are now so numerous that to indulge in a ceremonial of this nature is to unconsciously remain in the old rut and combat all innovations. So the town from the golden state decided to do away with any official functions and open their building without show. The quiet and spacious building was crowded all day with visitors, who found among the exhibits many things which they could see nowhere else on the grounds.

Electricity Building Open.
The formal opening of the electricity building, which had been so long deferred, took place tonight. The feature of the display was the unveiling and lighting of the big Edison tower, erected by the General Electric company. This shaft is situated in the exact center of the building and represents the higher achievement of the incandescent lamp. It extends into the grained arch formed by the intersection of the nave and transept, reaching a height of about 100 feet. The method used in construction has resulted in showing a perfect column as though the entire shaft were hewn from one massive block of stone. It springs from the roof of a colonnaded pavilion surrounding the base, and the entire interior is strewn with thousands of incandescent lamps as many hard as the western sunset. The colors are arranged by mechanical methods capable of being flashed in harmony with the strains of music. The column is crowned with a well proportioned replica of an Edison incandescent lamp, formed from a multitude of pieces of crystals. Upward of 30,000 of these beautiful jewels are strung about the building. The effect is marvellous and can only be appreciated when seen.

Germany's Exhibit Complete.
Sons and Daughters of the Blue Grass state make merry.

CHICAGO, June 1.—Kentucky dedicated her state building this afternoon in the presence of a great crowd which thronged the pretty structure and overflowed into the muddy street. The weather looked dubious all day, but luckily there were no showers at the hour of commencement. The crowd of Kentuckians and their handsome wives and daughters was increased just at 3 o'clock by the arrival of the blue grass editors in great numbers, their arrival, acting as escort to Governor Brown and staff, being the signal for the exercises to begin. The music was furnished by the Iowa state band and their rendition of My Old Kentucky Home was received with a roar of applause. President Dulaney of the Kentucky world's fair board led off by delivering an address, at the close of which he formally tendered the building to Governor John Young Brown. After a little more music the governor accepted the building on behalf of the commonwealth and after declaring it dedicated to the use of Kentucky and her natives, turned the building over to the exposition officials. The oration of the day was delivered by Col. W. O. Bradley, a famous orator from the state "just across the river." The exercises took place around the statue of Henry Clay, which stands in the rear of the building, and at their conclusion the party adjourned to the lawn and piazza, where took place the unveiling of Daniel Boone's statue. On this occasion the principal address was delivered by Col. E. T. Durrett, president of the Filson Historical club. After the ceremonies were over, the invited guests repaired to the Kentucky room in the woman's building where a delightfully informal luncheon was given. Governor Brown delivered an address.

KENTUCKY'S STATE BUILDING.
Sons and Daughters of the Blue Grass state make merry.

CHICAGO, June 1.—Kentucky dedicated her state building this afternoon in the presence of a great crowd which thronged the pretty structure and overflowed into the muddy street. The weather looked dubious all day, but luckily there were no showers at the hour of commencement. The crowd of Kentuckians and their handsome wives and daughters was increased just at 3 o'clock by the arrival of the blue grass editors in great numbers, their arrival, acting as escort to Governor Brown and staff, being the signal for the exercises to begin. The music was furnished by the Iowa state band and their rendition of My Old Kentucky Home was received with a roar of applause. President Dulaney of the Kentucky world's fair board led off by delivering an address, at the close of which he formally tendered the building to Governor John Young Brown. After a little more music the governor accepted the building on behalf of the commonwealth and after declaring it dedicated to the use of Kentucky and her natives, turned the building over to the exposition officials. The oration of the day was delivered by Col. W. O. Bradley, a famous orator from the state "just across the river." The exercises took place around the statue of Henry Clay, which stands in the rear of the building, and at their conclusion the party adjourned to the lawn and piazza, where took place the unveiling of Daniel Boone's statue. On this occasion the principal address was delivered by Col. E. T. Durrett, president of the Filson Historical club. After the ceremonies were over, the invited guests repaired to the Kentucky room in the woman's building where a delightfully informal luncheon was given. Governor Brown delivered an address.

MEDICAL CONGRESS.

A Tremendous Number of Papers Read on Treatment of Diseases.

CHICAGO, June 1.—The medical congress this morning settled down to work on one of the longest programs that has yet been arranged for a single day. R. A. Gurnea of New York presided over the division of general pathology in hall No. 12. Over a score of short addresses were delivered in this branch, among the most interesting being those of Prof. J. A. Bowers of New York, Prof. W. F. Carpenter of Indiana, G. H. Marked of Boston, Henry Long of Indianapolis, W. S. Mott of Salem, Oregon, and A. J. Reid of Davenport, Iowa. The section

of materia medica had not been assigned so long a program as the other branches and the papers read treated the subject more exhaustively than would have been possible had a number of speakers been greater. A. C. Copeland of this city presided, and the proceedings were opened by the secretary, Frank Kraft, of Cleveland, who was followed by Doctors W. E. Leonard, Minneapolis; Eldridge C. Price, Baltimore; A. L. Moore, Louisville; Charles Mohr of Philadelphia. The proceedings were brought to a close in a lengthy paper by Dr. R. K. Goach of Calcutta, India. The section of obstetrics was presided over by Dr. T. Griswold Comstock, and nearly every city in the country was represented in the list of doctors who presented their views. Columbus hall, which seats nearly 4,000, was comfortably filled by the visitors and local physicians and students who were interested in the medico-climatology section.

ARGUING SUNDAY FAIR.

Both Sides Presented Their Case in the Circuit Court.

CHICAGO, June 1.—The proceedings in the United States circuit court to determine whether or not the world's fair may be legally opened on Sunday were continued today. That the house interest in the matter is unabated was evidenced by the throng that packed the courtroom and its approaches, many ministers of the gospel being conspicuous by their occupancy of the front benches. Arguments in behalf of the government were resumed when the judges had taken their seats, ex-Solicitor General Aldrich being the speaker. The various acts of congress, he said, demonstrated that the fair was not only international, but essentially national; that the government had never viewed it as a local enterprise, or intended to surrender its control to a local corporation as a private venture. He called attention to the fact that the exposition had been located at Chicago by act of congress, and not as the result of any local decision, and insisted that the proposition to localize the exposition gave a negative to all the acts passed by congress, and all the financial assistance rendered. As a matter of fact, he held, the local corporation had no authority over the exposition, not even in the matter of regulating admissions, save the authority that was delegated to it by the government. Mr. Aldrich was still speaking when the court took a recess for lunch. This afternoon Attorney Walker replied on behalf of the directors, and Attorney High continued the presentation of the government's case. He will finish his argument tomorrow when the court will take the case under advisement.

RAISE TARIFF ON CEREALS.

LINCOLN, Neb., June 1.—The railways have filed with the board of transportation the new grain rates to go into effect June 10. The rate on cereals is raised from 1 to three cents per hundred. It is supposed this is one of the results of the maximum rate bill. It is expected heavy shipments will go forward within the next ten days.

Books Going to Chicago.

WASHINGTON, June 1.—It is understood by persons here who have been keeping watch of the matter that the valuable library of manuscripts and other historical antiquities collected by Hubert H. Bancroft, in preparing his Pacific coast histories, has been sold to the University of Chicago for \$80,000.

Mitchell and Hall Fall Out.

LONDON, June 1.—Jim Hall had his head punched last night by his whilom guardian, Charlie Mitchell. Sporting circles are today gossiping about the falling out. Mitchell met Hall last night at Pony Moore's resort, St. James hall, and the two quarreled. The resort was to fight, and Hall came out much the worse for the encounter. The police arrested Hall and he is now in jail. Mitchell cannot be found.

What Pencilers Must Pay.

ST. LOUIS, June 1.—The report having obtained currency that Frank Shaw will charge \$150 a day for bookmaking privileges at Washington park, Chicago, where he will control the betting ring, he was asked about it today, and it is replied that the rumor was correct, provided the number was limited, but that if the bookmakers were willing to enter an open field the usual price of \$100 would be charged.

Fought Eighty-Five Rounds.

NEW ORLEANS, June 1.—Andy Bowen was awarded the victory in the prize fight at 3 o'clock this morning. Everhart failing to show up when the bell sounded for the eighty-sixth round. It was learned that Everhart sustained a very painful injury to his left hand in the seventeenth round. Everhart put up a game fight, but Bowen had superior strength and endurance.

Winners at Hawthorne.

CHICAGO, June 1.—Hawthorne results follow:
First race, three-fourths mile—Marion won, Laura Cup second, Actina third; time, 1:31.

Hood's Sarsaparilla and Pills

Prove Their Merit.
"I think I would have been in my grave several years ago had it not been for Hood's Sarsaparilla. I was a United States soldier; served three years in the Union Army and was with Sherman in his March to the Sea. While in the service I contracted asthma, bronchitis and emphysema, which have become chronic diseases. I found that Hood's Sarsaparilla and Hood's Pills are the best medicines I can use for my complaints. They have certainly prolonged my life. I earnestly recommend them to the afflicted."—R. S. Thompson of the M. F. Church, Afton, Illinois.
